Class 3 Impact Resistance

UL 2218 Class 3 impact resistance offers protection against harsh weather conditions and may qualify for a homeowners insurance discount.

To provide homeowners with the most accurate representation of color options, several photo scans and house shots were used under various lighting conditions. Variations in lighting illustrate the color gradients on asphalt shingle roofs.

Color blends vary from shingle to shingle. Before installation, consult with your contractor and request to view the actual shingles being installed on your roof to ensure confidence in your final color selection.
