The Power of Core4®

With the unmatched durability and strength of StormMaster Shake® with Core4® Technology, these shingles are engineered to withstand the most challenging weather conditions. From heavy rain and snow to powerful 160 mph winds and scorching sunlight, these premium shingles go the distance.

This proprietary polymer technology provides exceptional protection against Mother Nature's worst with premium durability, flexibility, strength, and technology.

Why settle for less when you can have the best?!

Black Shadow

Experience the ultimate in roofing innovation with StormMaster® Shake, exclusively engineered using Core4® Polymer Modified Technology.

StormMaster® Shake

Premium Protection with Exclusive **Core4®** Technology

Breathe Easy, We've Got You Covered

With 3M™ Smog-Reducing granule technology, these shingles are made with innovative granules that convert smog gases into water-soluble ions, which are ultimately plant-usable salts that wash away with rain water. Each roof has the smog fighting capability of 2-3 trees, improving air quality one roof at a time.

Strength Has Never Looked So Good

StormMaster® Shake is manufactured to face even the most severe storms. Protected by a UL Class 4 Impact-Resistance rating and the ability to withstand 150 mph winds, you can rest easy knowing what matters to you most is protected. Not only that, you get the protection of an algae-fighting granule, 3M™ Scotchgard™ Protector, a roofing technology that has protected 1.5 million homes over the past decade.

Atlas Lifetime** Algae Resistance Limited Warranty
Lifetime Limited Warranty***
Atlas Signature Select® Eligible¹

ASTM

D7158, Class H Wind Resistance, Passed at 150 mph
D6381, Uplift Resistance
D3018, Type 1
D3161, Class F, Tested at 110 mph
D3462, As Manufactured
E108, Class A Fire Resistance

UL

2218, Class 4 Impact Resistance
790, Class A Fire Resistance
2390, Class H Wind Resistance
Meets AC438 Criteria
CAN/CSA-A123.5-M90
Florida Building Code Approved - FL 16305
Miami-Dade County Product Control Approved

Atlas Roofing Corporation (ATLAS) warrants to you, the original owner of its shingle products, that this product is free from any manufacturing defects that materially affect the performance of your shingle during the Premium Protection Period or that cause leaks for the balance of the applicable warranty period.

* The Solar Reflectance Index (SRI) is an indicator of the ability of a roof surface to return solar energy to the atmosphere. Roofing material surfaces with a higher SRI will be cooler than surfaces with a lower SRI under the same solar energy exposure, especially on a sunny day. Using materials with higher SRI values can enhance building occupant comfort and reduce air conditioning use. SRI values listed above are INITIAL values from the Cool Roof Rating Council. For more information, please reference the Cool Roof Rating Council: CoolRoofs.org.

** In order to qualify for the Atlas Lifetime Algae Resistance Limited Warranty against black streaks caused by blue-green algae, installation must include StormMaster® Hip & Ridge shingles, Pro-Cur® Hip & Ridge shingles, or Pro-Cur® High Profile Hip & Ridge shingles featuring Scotchgard™ Protector with Atlas shingles featuring Scotchgard™ Protector.

*** Refer to the Atlas Roofing Limited Shingle Warranty for all coverage requirements.

¹ Refer to the Atlas Signature Select® Limited Warranty for all system coverage requirements.

Scotchgard™ and the Scotchgard™ Protector logo, including the plaid design and 3M™ logo, are all trademarks of 3M.
